THE NEW PISTOL IN CROSSOVER DESIGN

GLOCK INTRODUCES

The G45 is the latest outstanding addition to the family of GLOCK pistols. Utilizing the design and engineering GLOCK developed for its military pistols (G19X), combined with Operator and worldwide Law Enforcement specifications, the G45 in 9x19 mm is a crossover design.

THE NEW G45

The superb G45 combines the fast handling and cycling of a GLOCK 19 – sized slide with the frame size of a G17 Gen5. Both upper and lower assemblies have received subtle enhancements which distinctly improve performance.

The slide has the proven, superior GLOCK hard-surface finish in non-reflective black. Additionally, there are forward serrations precision-milled near the front, forward of the ejection port on both sides. The frame is also a subdued black, with a flared magazine well which completely encircles the front of the grip. Fast reloads in critical situations can be performed with speed and efficiency.

The G45 incorporates other elements of the Gen5 GLOCK pistols including a smoother trigger pull, the enhanced frame

texture for sure handling, a reversible mag catch, ambidextrous slide stop lever, the MBS system for individual adjustability and the incredibly accurate, reliable GLOCK Marksman Barrel (GMB).

Simply put, GLOCK has the next level of performance for service pistols – tested, proven and unmatched by any others. The GLOCK Compact Crossover Pistol Model G45 will be available for purchase starting from October, 2018. For further information, please contact your GLOCK partner or the GLOCK company directly.

G45 – COMPACT CROSSOVER

The 9x19 compact crossover pistol G45 combines a compact slide with a full size frame and has all the benefits of a Gen5 model:

- The front serrations
- The ambidextrous slide stop lever
- The nDLC finish
- The Glock Marksman Barrel
- The absence of finger grooves on the frame
- The flared frame
- The reversible magazine release
- The smoother trigger pull

Engineered with the GLOCK perfection promise, the G45 pistol features the Safe Action® System as well and is backed by torture-testing that has made GLOCK a name synonymous with innovation and reliability.
